

Putting safety first in pressure relief applications brings a unique set of challenges. The E3 Company (TE3CO) works to address those challenges and enhance safety through automation.

Innovating on our flagship RAT (Relief Automation Technology) and BAT (Bleed-Down Automation Technology) platforms, the Compact Unit reduces the footprint, operating cost, and adds depressurization adjustability into a single unit. The Compact Unit performs as a bleed down for frac as well as other applications up to 14 BPM.*

The Compact Unit prevents human exposure during wellhead equalization after a flowline pressure test or full pumping system depressurization. Instead of manually operating valves, the operator uses a remote electronic control to specify the desired pressure condition and command the valve to open, bleeding down at a controlled rate.

*Contact TE3CO for alternate valve sizing or applications

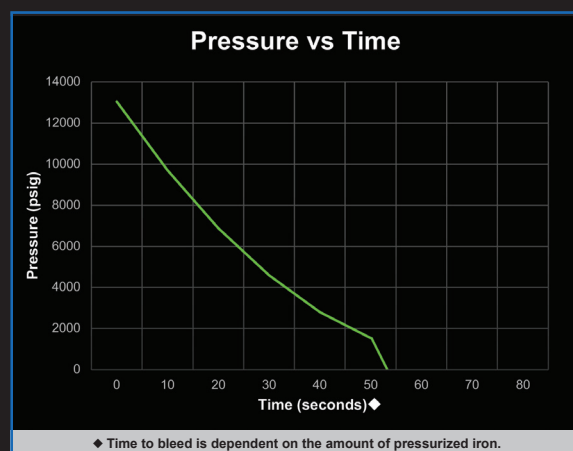

KEY BENEFITS

- Eliminate human exposure when equalizing well pressure or a complete depressurization of the surface piping
- Depressurization rate may be customized by operator
- Valves are in-line for ease of rigging in
- Increases operating efficiency

KEY FEATURES

- Can be configured to operate in coordination with other TE3CO equipment
- **Safety Smart Technology™** - adaptive learning for close-in pressure
- Programmable pressure adjustment for equalization process
- Ability to monitor the Compact Unit through customer software via serial output

APPLICATIONS

COMPACT UNIT™

- Applications:
 - Wire-line
 - Bleed-down well/pump side
 - Water treatment plant
 - Pump house/station maintenance
 - Vessel maintenance
 - Any fluid release applications
- May be used to automatically control a desired pressure setting for bleed off or blowdown and priming the piping system
- Operating Temperature of -22 to 140 °F (-30 to 60 °C)
- Unit can relieve a maximum of 14 BPM at pressures up-to 15,000 PSI

SERVICE CENTERS

ARKLATEX DIVISON
301 Marvin A Smith
Kilgore, TX 75662

EAGLEFORD SHALE
8157 South State Hwy 16
Jourdanton, TX 78026

MARCELLUS & UTICA SHALE
13613 Broadway Drive
Meadville, PA 16335

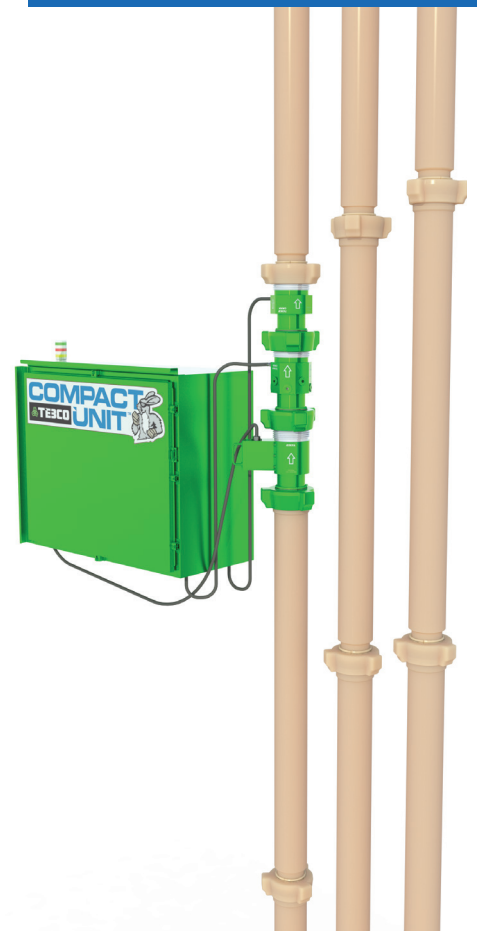

PERMIAN BASIN
8001 W Hwy 80 E
Odessa, TX 79765

ROCKY MOUNTAINS
5806 Baldwin Lane
Williston, ND 58801

**CANADA AUTHORIZED DISTRIBUTOR
& SERVICE CENTERS**
Topco Oilsite Products
Red Deer & Clairmont, Alberta

CORPORATE SALES
Houston, TX

IN-LINE

NEW TOUCH SCREEN RHMI

- Large 10" touchscreen display.
- Visual and audible alarms with basic troubleshooting tips to resolve simple issues and reduce field calls and operational cost.
- Intelligent touchscreen controller automatically recognizes and switches between RAT & BAT software.
